

Shipping from outside Europe

In order to avoid parcel delay at the border, increasing blood degradation risk (by clotting). Please follow the instructions below :

1 At least 1 week prior shipping

Send an email to contact@antagene.com with the following information :

- **Contact details** (First name, LAST NAME, email, phone number and postal address)
- **Sample type** (blood / cheek-swab)
- **How many samples are concerned**
- **Species concerned** (dog / cat...)

Within **1 week**, ANTAGENE will transmit you by email a validated « French Import Authorization Document », that has to be printed twice.

2 Once transporter chosen

- Fill completely all the forms provided (Proforma Invoice + Dispatch Notes).
- **The total value for all declared samples must be 1€ (or 1\$)**
(*Samples in themselves have no value and can't be sold*)

3 Parcel preparation

• In the Parcel

Follow transporter instruction and add a copy of « French Import Authorization Document »

If no instruction are provided, add :

- 1 copy of the Proforma Invoice
- 1 copy of « French Import Authorization Document »

• On the Parcel

Follow transporter instruction and add a copy of « French Import Authorization Document »

If no instruction are provided, add :

- 3 copies of the Proforma Invoice
- 1 copy of « French Import Authorization Document »
- The Dispatch Notes

4 Prior shipping : Inform Antagene

By email to contact@antagene.com with a copy (or picture) of the Dispatch Notes
